SUMMARY

MERN Stack Developer with 1 year of professional experience building and maintaining production web applications. Skilled in **JavaScript, React.js, Node.js, Express.js, and MongoDB**, with hands-on experience in REST APIs, JWT authentication, real-time features using Socket.IO, and responsive UI development. Strong foundation in Data Structures & Algorithms and a focus on clean, maintainable code and problem-solving.

TECHNICAL SKILLS

Languages: JavaScript, Java, HTML5, CSS3

Frontend Development: React.js, Next.js, React Router, Tailwind CSS, Bootstrap, Responsive Web Design

Backend Development: Node.js, Express.js, REST APIs, JWT Authentication, Authorization, bcrypt

Database: MongoDB, Mongoose, SQL

Tools & Technologies: Git, GitHub, Postman, Cloudinary, Vercel, Netlify, Render

Computer Science: Data Structures & Algorithms, Object-Oriented Programming, DBMS, SDLC

EXPERIENCE

MERN Stack Developer Oct 2025 – May 2026
BodhiWaves Venture Studio

- Developed and maintained the production website **bodhiwaves.com**, delivering responsive and user-friendly web experiences.
- Built responsive frontend interfaces using **React.js, JavaScript, HTML5, and CSS3** across multiple pages and features.
- Created reusable React.js components to improve frontend consistency, code maintainability, and development speed.
- Implemented responsive layouts and optimized UI functionality for consistent experiences across desktop, tablet, and mobile devices.
- Identified and resolved frontend issues, refactored existing code, and optimized components for better usability and maintainability.

Web Development Intern Aug 2025 – Oct 2025
VIP Digital Hub IT & Software Solutions

- Developed responsive web interfaces using **React.js, JavaScript, HTML5, and CSS3** for web applications.
- Created reusable React.js components and implemented responsive layouts to improve consistency and usability.
- Integrated third-party services and dynamic content into application features based on project requirements.
- Assisted with backend development using **Node.js and Express.js** for application functionality and integration.
- Debugged application issues, refactored existing code, and optimized frontend functionality for better performance and reliability.

PROJECTS

DSA Visualizer *React.js, JavaScript, Tailwind CSS*

- Developed an interactive web platform for visualizing **Data Structures and Algorithms** through step-by-step execution and animations.
- Implemented dynamic visual states to demonstrate algorithm operations, comparisons, swaps, and execution flow.
- Built reusable React.js components for visualization controls, algorithm states, and interactive learning features.
- Designed a responsive interface with user-controlled execution to make algorithms easier to understand.
- Ensured cross-browser compatibility and optimized rendering logic for smooth, lag-free animations.

ChatCoder *React.js, Node.js, Express.js, MongoDB, Socket.IO*

- Developed a real-time chat application with one-to-one conversations using the **MERN stack**.
- Integrated **Socket.IO** for real-time messaging, event-based communication, and instant message delivery.
- Implemented **JWT-based authentication and authorization** to secure user access and application functionality.
- Designed a responsive chat interface with online status, timestamps, and notifications.
- Designed Mongoose schemas for efficient storage and quick retrieval of chat histories.

EDUCATION

Sagar Institute of Research and Technology (SIRT), Bhopal 2022 – 2026
B.Tech in Computer Science and Engineering

BKD Aldrich Public School
Class XII – 75.2%

Sacred Heart Centenary Academy
Class X – 85.2%

CERTIFICATIONS

- Oracle DevOps Certification
- Java, Data Structures & Algorithms, and Web Development Certification – RICR
